

Rex Jorgensen, ARM

Rex Jorgensen is a senior risk management consultant with Ashton Tiffany, LLC and has been employed by them since 2007. He is currently responsible for Ashton Tiffany's Public Entity practice. This includes managing outsourced risk management functions and administering self-insured programs and special projects for other public entity clients.

In addition to his role as Public Entry Practice Leader, Mr. Jorgensen is a member of Ashton Tiffany's Healthcare Specialty practice. As an account manager, he coordinates a variety of services for his healthcare clients including: captive insurance company consulting, alternative risk financing feasibility analysis; insurance policy review and drafting; broker services coordination; and general risk management consulting.

Mr. Jorgensen actively participates in the local chapters of the Arizona Captive Society (board member), Arizona Society for Healthcare Risk Management, Arizona Public Risk Management Association and the Risk Insurance Managers Society and has been a featured speaker with these groups.

His professional risk management career began in 1994, working as a property and casualty broker in Washington, D.C. He has handled risk management programs for domestic and multinational clients of various types and sizes, including Fortune 500 companies and government entities.

He graduated from the University of Arizona with a bachelor of science in business administration and has earned the associate in risk management (ARM) designation from the Insurance Institute of America.
